

SHORT-TERM – GETTING OUR HEALTH WORKFORCE PIPELINE GOING AGAIN

Phase 1 Higher Education & Critical Infrastructure Workforce Training Restart COVID-19 Requirements (GOV)

- Restart Requirements – GOV with DOH & L&I
- Essential Programs – 42 program areas

Considerations

- All of our constituents must be assured of their safety – students, faculty, staff, employer partners
- May need to prioritize students closest to graduation
- PPE ongoing issue
- NCQAC COVID guidance continues to apply to program requirements – layers on to the new Phase 1 Essential Programs
- Safety protocols are non-negotiable. If protocols are not practicable, they can't operate, even if on the essential list. (custodial? PPE? 6'? Etc)

LONG TERM CONSIDERATIONS AND LESSONS LEARNED

1. Listening to stakeholders
 - Clinical Placements/ Simulation
 - Online Delivery/Technology /Student access
 - Accreditation/ Student Support
2. Communities of Practice
 - Shifting Priorities- System Responsiveness
 - Getting Back on Campus
 - Opportunities for Innovation
 - Public Health Curriculum
 - Online delivery
